HEALTH CENTER

VOLUME SUMMER PROGRAM

The VOLUME Summer Program is a service-based, hands-on learning experience for high school students hoping to pursue careers in medicine, nursing, rehabilitative therapies, special education or social work. Participants have the opportunity to work one-on-one with the Hospital's pediatric patients at bedside and in special education classrooms. VOLUME also includes educational presentations, skill and character-building activities and an opportunity for job shadowing.

REQUIREMENTS

- Those applying for the 2022 program must be enrolling in 11th and 12th grade during the 2022-2023 school year.
- Applicants must commit to attending all sessions, only two absences are allowed.
- Selected participants must receive certain required immunizations and Tuberculosis (TB) tests.

2022 SESSIONS

To accommodate the VOLUME program with COVID-19 precautions, VOLUME will be offered in one session for 12 students. VOLUME will be conducted in the following dates and times:

- [2022 Session \(Class VIII\)](#): Monday, June 6th through Thursday, June 23rd. Participants will meet daily (Monday through Thursday) for three weeks from 8:15 a.m. to 12:00 p.m. each day. The first day of VOLUME (Monday, June 6th) is mandatory. Students should not apply if they cannot attend June 6th in its entirety.

HOW TO APPLY

Applications are located under the "Teen Volunteer Opportunities" link on the Hospital's website – tccokc.offero.com/GetInvolved. Applications are due April 1st, 2022. As space for VOLUME is limited, some applicants may not be accepted into the program. For more information, contact Volunteer Services at volunteer@bethanychildrens.org or (405) 789.6711.

VOLUNTEER • OBSERVE • LEARN • UNIFY • MENTOR • EXPLORE

"The VOLUME Summer Program was a blessing and a great opportunity for me. I have learned to have compassion for those who are in need. This program has helped me learn about the medical profession, special education methods and the therapies involved in rehabilitative care. I have been humbled by this experience and am thankful to God for everything He has given me." – Adarsh, VOLUME Class III

"The Bethany Children's Health Center has taught me what it looks like to truly love your job and what it looks like to take care of a child's every need. I have learned that the Hospital is not like any ordinary hospital; the staff fully loves and takes care of every individual child and help the families as best they can." – Rachel, VOLUME Class III
